

DiagnOx

Supporting the diagnostics sector

DiagnOx services include:

Technology Audit, Intellectual property identification, protection and intelligence
Assistance in sourcing proof-of-concept, development and start-up finance
Establishment of company and finding staff and facilities
Meetings, training courses, partnering and networking events
Introductions to potential partners
Market intelligence and sector information
Specialist reports and consultancy

DiagnOx laboratory facilities include:

Use of laboratory equipment
General consumables
Bench and desk space
Office services including reception
High speed internet and telephone switchboard
Meeting rooms and presentation equipment
Business mentoring
Access to technical, commercial, regulatory and financial expertise

There are three options for joining the network;

- become a registered website user (limited access)
- become a full member (£295+vat annually)
- become a DiagnOx lab tenant

DiagnOx is a network of organisations and individuals with interests in all aspects of the diagnostics sector. The strength of DiagnOx lies in its extensive membership, which includes diagnostic companies, universities, NHS Trusts, and specialist service providers.
